## SEASONING SYSTEM

**Fabcon**<sup>TM</sup>  
INDIA 

### **Key Features:**

- Designed for the perfect coating.
- Choice of Multiple Drum Profiles & Size to suit all product varieties

### **Options of:**

- 1 Dry Seasoning only
  - 2 Slurry based application
  - 3 Oil Mist & Dry Dosing together
- **Capacities:** Varying per product 100-3000 kgh
  - **Best suited for:** Pellets, Extruded, Nuts, Indian Noodles, Sev, Namkeen, Bhujia, Mixes.
  - **NOW WITH:** DYNAMIC CLOSE LOOP WEIGHT BASED SEASONING CONTROLS

# NEW FOOD

Alternative proteins are changing  
the way people eat and think about food.

More information:

# Expand your business with a new pre-made machine with carousel technology

- Increase efficiency by having quick changeover in less than 5 minutes.
- Ready for sustainable materials.
- Work with an extended range of formats.

## HMRS Series

The HMRS Series is an innovative horizontal fill and seal machine that is integrated with Mespack's latest technology. These machines have the ability to operate in intermittent or continuous motion depending on the product, available to work with different product types, such as liquids, powders, granules and solids. It is compatible to work with different pre-made pouch types such as flat pouches, stand-up pouches, box pouches, etc.

Ace Technologies was founded in 2000, and is best described as young, effective, and on the rise.

Since its inception, it has been on a clear path of growth, this can be attributed to its core principles and values of the company which are:

- Integrity
- Understanding
- Excellence
- Unity
- Responsibility

These values, have been part of our company's beliefs and convictions from the early days, continue to guide and drive our business decisions. We continue to acquire and develop core technologies through continuous alliances with renowned partners and suppliers.

Innovation is at the core of everything we do. Our team of experienced engineers continuously push the boundaries of technology to develop cutting-edge machinery that maximizes efficiency while maintaining the highest quality standards. Our packaging solutions are versatile and adaptable to a wide range of industries.

Our state-of-the-art facilities are equipped with the latest manufacturing technologies, allowing us to maintain strict quality control throughout the production process. Each machine undergoes rigorous testing to ensure reliability, durability, and optimal performance, meeting or exceeding industry regulations and standards.

Customer satisfaction is paramount at Catalis. We work closely with our clients to understand their unique requirements and provide customized solutions that address their specific needs. Whether it's a standalone machine or a fully integrated packaging line, our goal is to help our customers streamline their operations and achieve greater productivity.

We are empowering extrusion technologies for smart industries Clextral has 70 years of experience in designing and manufacturing extrusion lines. The company is renowned for its technical know-how and ability to develop custom solutions to meet the needs and to adapt future requirements of its customers.

Our flexible equipment offers our customers the possibility to produce a variety of products for a wide range of applications:

- Snacks: 3D directly expanded, co-extruded snacks, bread snacks, wavy chips...
- Alternative proteins: high moisture extrusion, texturized vegetable proteins, hybrid
- Crispbreads
- Breakfast cereals: directly expanded cereals and flakes, co-extruded (filled) and bicolored cereals...
- Ingredients: bread crumbs, infant cereals, modified flours...
- Couscous and pasta

Our systems are recognized for their reliability and flexibility and include ancillary equipment, dryers, and all the engineering, process and after-sales services necessary for our customers' success.

Whatever your needs, we have the right equipment for you. From coating to seasoning to drying, we have the process and technology for each product:

- Range of extruders: efficient production of a wide variety of products for human food and animal feed.
- Range of dryers: versatile systems that combine high drying performance, hygienic design and safe operation.
- Range of preconditioners: increase productivity thanks to improved precooking.

- Range of ancillary equipment: coating, seasoning, coextrusion kit, etc.

Clextral is an international company (80 % exported to over 100 countries), present worldwide in 13 subsidiaries and offices on all continents.

Columbia Machine Engineering (India) Pvt. Ltd. specializes in the manufacturing and supply of Concrete Product solutions and Palletizing solutions to various industries in India and across Asia and Africa. We are a wholly-owned subsidiary of Columbia Machine Inc. USA, a global leader with over 87 years of experience in designing, manufacturing, and supporting equipment across various industries, serving customers in over 100 countries worldwide.

For over 50 years, the Palletizer Division at Columbia Machine has been dedicated to serve a diverse range of industries, including food, beverage, tissue towel, paper, dairy, pharmaceutical, personal hygiene, and chemical sectors. Our clientele now boasts prestigious Fortune 100 companies that palletize a wide range of products, from paper towels and laundry detergent to fruit juice, dog food, and chicken.

Columbia specializes in the manufacturing of inline high-speed, high-level, floor-level, and robotic palletizers, as well as load transfer stations and systems integration. Our flexible, upgradeable designs can achieve speeds exceeding 200 cases per minute. With over 4,000 palletizers in operation throughout the industry,

Columbia proudly holds the title of North America's foremost palletizer

manufacturer. To serve the Indian territory, all Columbia Palletizers are proudly built at our factory located in Baroda supported by formidable customer assistance and parts services.

We've also proudly supplied our palletizing solutions to renowned clients in India, including Kaleesuware, Amrit Bottlers, Coca-Cola, Nestle and Pepsi.

GEA is one of the pioneers and largest suppliers of the systems and components to the dairy, food, beverage, chemical and pharmaceutical industries. The international technology group, founded in 1881, focuses on plants and machineries, as well as advanced process technology, components, and comprehensive services.

GEA excels in building the first-of-its-kind, one of the largest scale production facilities along with taking care of sustainability to meet demands in the market, keeping our customers on the top of new trends and to be more competitive. The technologies are designed and engineered to suit the stringent quality norms, food safety and hygiene standards, while operating efficiently and sustainably.

The company offers complete solution for the food processing sector like

food ingredients, frozen food, new food, liquid foods, seafood, oil & fats, bakery, pasta, extruded snacks, pallets, and meat processing, RTE/RTS, freeze dried products, fruits processing, vegetable processing, slicing, and packaging solutions, carbonates, juice processing, instant coffee lines, aseptic filling & packaging, liquid food along with plant-based food and beverages.

For Indian operations, the company is headquartering in Vadodara having its large-scale manufacturing units in Vadodara (for dairy, food, beverage, and pharma applications) and in Bengaluru (for its Separation and Flow Components business) . For more information on the product portfolio or to discuss project specific requirements, please contact us on [sales.india@gea.com](mailto:sales.india@gea.com)

Food and beverages are processed and packaged and we help companies to do that with our Green technology.

our Infrared systems and UV technology optimize the necessary processes:

- Drying of special coatings
- Precise heating processes for chocolate and confectionary
- Browning of toppings and ready meals
- Heating of foods for longer shelf life
- Inactivation of viruses, bacteria and other germs on packaging materials and surfaces

It pays to match UV and IR precisely to product and process. This saves energy and improves quality!

In 2013, 3P Group`s third step to self sufficiency was the establishment of Matrix - a process equipment manufacturing and automation firm. We often work closely with 3P Group`s existing clients to provide end-to-end solutions. Our scope of work extends from process engineering to supply and installation. Substituting import with in-house, our experienced process and design engineers help clients automize operations. Our team includes mechanical, chemical, electrical, instrumentation and AutoCAD experts. The matrix engineering workshop is based on a well-equipped 7000 sq ft facility in Satara.

Safesurge has been a long-standing manufacturer and exporter of large-scale machinery and equipment across the industries such as FMCG, food and beverage, and pharmaceuticals.

Established in 2015 as an off-shoot of the parent company Punchtab Engineering Pvt. Ltd., we provide end-of-line automation and inspection systems.

Our organizational values have enabled us to grow our business and move beyond South-Asian countries to become a global entity.

Today, our reach extends to markets in India, Nepal, Bangladesh, Gulf countries and beyond. Our expert services have made a global name for us among the most prestigious of brands. We keep the requirements of our clients at the forefront of our production to create customized solutions.

Our mission is to manufacture and supply high-quality products that ensure the safety and well-being of end-users. We are committed to building long-lasting relationships with our clients and global partners, which helps us establish mutual trust and accountability.

Yamato Scale is a pioneer and leading global manufacturer and innovator in the field of weighing technology. With a rich legacy spanning several decades, Yamato Scale has consistently stood at the forefront of the industry, delivering cutting-edge solutions that cater to diverse weighing needs across various sectors.

Renowned for its unwavering commitment to quality, reliability, and customer satisfaction, Yamato Scale has earned a reputation as a trusted supplier of Multihead-weigher combination scale in India market for various food application ranging from snacks, frozen, non-frozen, seeds, cereals, dried fruits businesses seeking efficient and accurate weighing solutions. Other product forte includes Packer scale for handling small to large bags with precise accuracy and faster speed, highly accurate checkweigher for fast and accurate weighing.

In addition to its product offerings, Yamato Scale also provides comprehensive after sales service support, including technical, maintenance advice, training.

## Notes

## **Product Index**

- 1 Processing Machines & Equipment
  - 1.1 Grain-based food processing technology
  - 1.2 Meat processing technology
  - 1.3 Fish processing technology
  - 1.4 Dairy processing technology
    - 1.4.1 Processing machines, plants, & processing lines for milk & dairy products
    - 1.4.2 Dairy packaging equipment & material suppliers
    - 1.4.3 Aseptic packaging technology
    - 1.4.4 Bottling & filling technology for milk and dairy products
    - 1.4.5 Equipments & accessories for separation, clarification, centrifugation, fermentation, sterilization, UHT, etc.
    - 1.4.6 Homogenisers
    - 1.4.7 Separators
    - 1.4.8 Bulk Milk Coolers
  - 1.5 Sweet Processing Technology
  - 1.6 Edible Fat & Oil Technology
  - 1.7 Starch Production Plants
  - 1.8 Noodle & pasta Technology
  - 1.9 Potato Processing Technology
  - 1.10 Vegetable and fruit technology
  - 1.11 Delicatessen and convenience food technology
  - 1.12 Beverage technology
  - 1.13 Ice cream technology
  - 1.14 Coffee processing technology
  - 1.15 Tea processing technology
  - 1.16 Aroma, essence and spice technology
  - 1.17 Snack production lines
    - 1.17.1 Complete line for production of chips
    - 1.17.2 Complete line for production of extruded snacks
    - 1.17.3 Complete line for production of crackers
    - 1.17.4 Complete line for production of snack sticks
    - 1.17.5 Complete line for production of Indian snacks
    - 1.17.6 Complete line for production of baked snacks

- 1.18 Snack production machines & equipment
  - 1.18.1 Coating machines
  - 1.18.2 Cutting machines / equipment
  - 1.18.3 Deep frying machines
  - 1.18.4 Dosing & mixing equipment
  - 1.18.5 Dough forming equipment
  - 1.18.6 Drying equipment
  - 1.18.7 Extruders
  - 1.18.8 Filling systems
  - 1.18.9 Forming machines
  - 1.18.10 Spraying equipment
- 1.19 Bakery & Confectionery production lines
  - 1.19.1 Complete line for production of bread & bread rolls
  - 1.19.2 Complete line for production of croissants
  - 1.19.3 Complete line for production of cakes
  - 1.19.4 Complete line for production of donuts
  - 1.19.5 Complete line for production of rusks
  - 1.19.6 Complete line for production of biscuits & wafers
  - 1.19.7 Complete line for production of bars
- 1.2 Bakery & Confectionery production machines & equipment
  - 1.20.1 Kneading systems & equipment
  - 1.20.2 Mixing machines / equipment
  - 1.20.3 Dough forming and transport systems
  - 1.20.4 Make-up lines
  - 1.20.5 Sheeting machines
  - 1.20.6 Layer cake machines
  - 1.20.7 Biscuit machines
  - 1.20.8 Toast machines
  - 1.20.9 Ovens
  - 1.20.10 Oven loading & unloading systems
  - 1.20.11 Lye application machines
  - 1.20.12 Strewing machines
  - 1.20.13 Decorating machines
  - 1.20.14 Dosing machines
  - 1.20.15 Pastry moulding machines
  - 1.20.16 Gazing machines

## Product Index

- 1.20.17 Coating machines
- 1.20.18 Cutting machines / equipment

For the last 26 years we've been working hard to improve 'Processed Food Industry' and now we are eager to share our progress with you

Increased Circulation – More than 60,000 entrepreneurs; senior managers; production engineers; QA, processing, packaging engineers; design/consulting services; research institutions; food/beverage manufacturers; distributors and retailers eagerly await the magazine every month.

Improved Editorial inputs – Its knowledge-based contents are tailor-made to address the emerging technology-savy-professionals. Be it the hard-core technologist or the industry manager looking for better ways to manage men, machines and operations, PFI provides practice-based insights for latest technology and management of machines and operations.

Wider Coverage – PFI addresses all sectors of industry; these include Beverages, Dairy, Meat, Poultry, Marine Food, Fast Food, Food Packaging, Flavours, Ingredients & Additives, Storage and handling among others.
